Medical Instructions

Everyone included in your application, whether accompanying you or not, must undergo a medical examination with a physician on the list of designated medical practitioners. If you are a divorced or separated parent, a minor child of whom you have joint or sole custody is considered your dependent child, even if he or she usually lives with the other parent and is not accompanying you to Canada.

Instructions for this examination will be provided after your application has been assessed by a Canadian visa officer.

You will be responsible for the costs of the medical examination for all your family members.

You should note that, at the time of medical examination, you and all family members will be required to present individual passports as evidence of identity. **If each of your family members does not already have an individual passport, you should apply to obtain them now.**

Applicants may, at any time, request that medical instructions be issued, and may undergo an immigration medical examination at their own risk. Undergoing an immigration medical examination does not guarantee that a permanent resident visa will be issued.

The permanent resident visa has the same validity period as the medical results, that is, 12 months from the date of the first examination or test.
